Georgi Koev (1910-1983) – *Legend of the Bulgarian Clarinet*

BMA Productions – CD BMA-1009 – *Bulgarian Folk Archives* Collection

This unique collection features 25 original and rare melodies played by the legendary Bulgarian clarinetist and compiled by Yves Moreau from the archives of the Bulgarian National Radio and the former state-owned *Balkanton* record company.

Clarinet players in the Thracian region of Bulgaria are legion, but Georgi Koev's style was unique. Recognized as a very astute and self-assured performer, Koev was famous for his improvisation. His repertoire consisted of traditional dances from the Pazardzhik region and slow expressive melodies which always moved his audiences.

«Georgi Koev produced a sound so close to the human voice. When he played, it was as if he was telling a story. His slow melodies sounded much like weeping and were very touching» - *Prof. Petko Radev*
